They should be consistent, but maybe they weren't – I was relying primarily on the map. I'll mark something up and send it out to you as soon as I can. My schedule is wide open tomorrow if you want to pick a time to talk.

Thanks

Marcia and I have another commitment - but we can probably make sometime - can you tell/show us which ones you believe are missing? AECOM is back checking - I think we relied primarily on your August 23 table as we tabulated locations. Are you saying that there were locations on the map mark ups that were not included on the table?

I've been comparing the corrected map you sent on September 9 to the annotated map I sent you on August 23rd. Unless I'm looking at your figure wrong, there are a number of locations we requested that are not included on the September 9 figure..perhaps we should set up a webinar with Marcia for tomorrow morning?
